Reviewed Organizations

- LinkedIn
- Fiverr
- Upwork
- Freelancer
- Behance

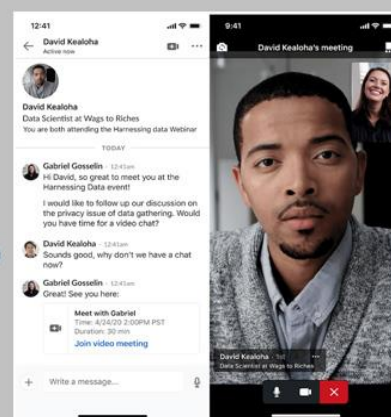

LinkedIn

LinkedIn does not provide any stronger protection for sensitive data.

Also, it does not have restriction for children's access. An underage children may visit the site and create an account by providing his/her confidential data since the site has no age restriction.

Furthermore, the LinkedIn data collection policy does not highlight the advantages and risks of users providing data.

LinkedIn

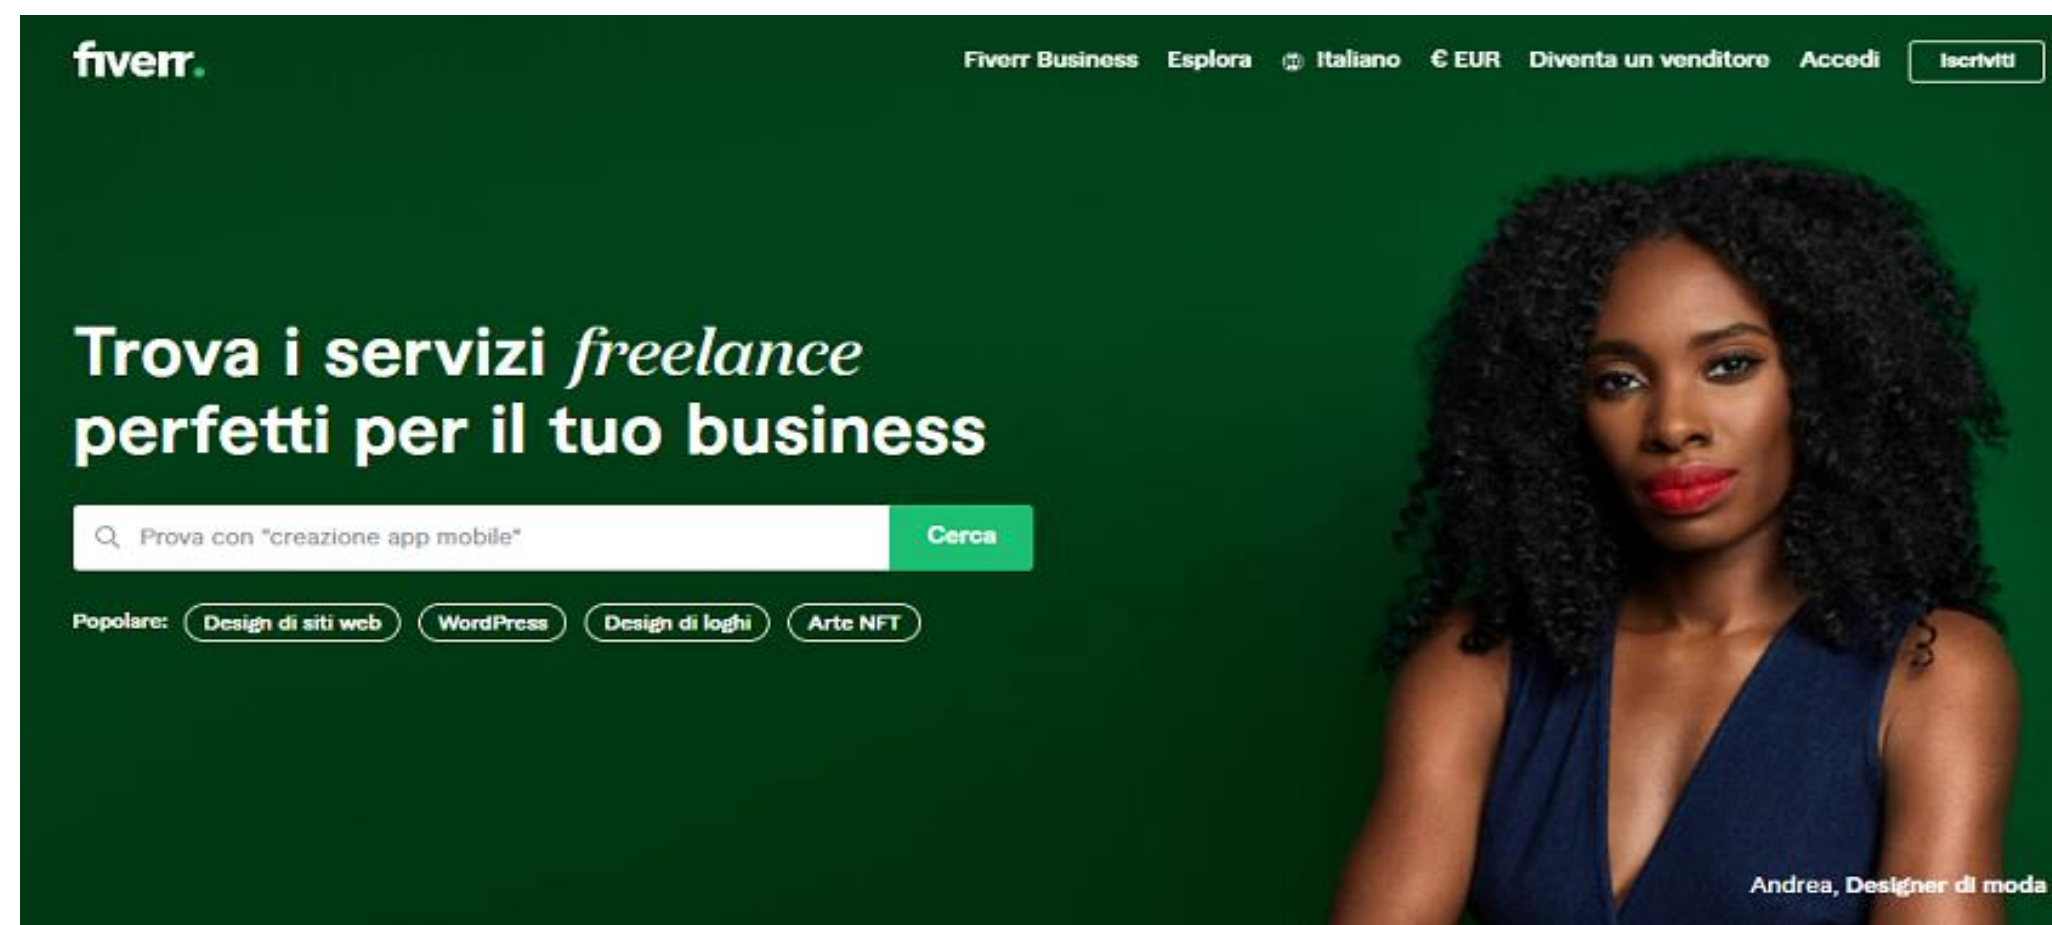

Fiverr

"Fiverr contains links to third-party sites and if you link to a third-party site from the Site, any data you provide to that site and any use of that data by the third party are not under the control of Fiverr and are not subject to this Policy."

There is no method for users of Fiverr to transfer their data to other parties or unsubscribe from mailing lists. And while Fiverr distributes data with other parties, it has no control over the data that has been provided.

Additionally, the risks and benefits of users submitting data and exchanging data with third parties are not explained in Fiverr's data collection policy.

Upwork

"We may share information about you to provide the Services, for legal and investigative purposes, in connection with sweepstakes and promotions, or if we are part of a merger or acquisition. We may also share non-identifying information with third parties. You have choices as to whether we share your personal information with third parties for their own marketing purposes."

- Does not properly describe the liabilities if a third party misuses the data of the user which was originally shared by Upwork.
- No description about the possible risks of providing the user's personal information to Upwork.

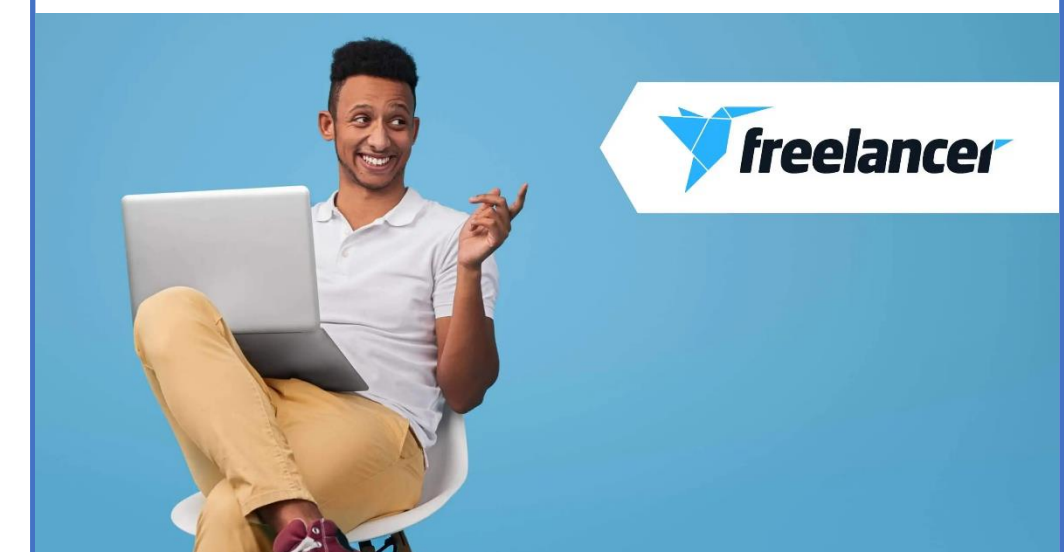

Freelancer

"Depending on the permissions that are granted, these applications may be able to access some personal information or do actions on the users' behalf. These third party applications are not controlled by us and will be governed by their own privacy policy."

- They will not take any responsibility about the third party of gathering user's information.

- They do not mention how long the user data will be stored.

Behance

There is no opt-out policy available on Behance. Users of Behance are unable to move their data to other businesses or unsubscribe from mailing lists.

They don't adequately clarify when and how they are gathering the data. It is not explicitly stated how data are used or collected.

Behance
