# The services and properties of the OTT Family

The contents of Netflix are not classified basis on age restriction

**NETFLIX**

The contents of Netflix are not classified basis on age restriction.

Netflix can remove any contents at anytime as per the content provider license agreement.

If the Disney and Warner Bros put back their channel, the Netflix loses 10% of their content.

Chorki reserves a right to restrict access for a particular region at any time. It will be unfair of those region users.

If any license agreement of bioscope is restricted by the government then bioscope replace that agreement easily but for this, the user will face many problems.

Amazon prime video uses cookies notice only in European Union region. But they do not use cookies notice in other country.

Amazonprime gives notice to the users for any kind of modification, assigning rules or update.

In Amazon primevideo, the validity of rented video is 30 days. The watching time validity is 48 hours from starting.

Shares personal information to amazon.com

The contents of Hoichoi are classified basis on age restriction depends on age ranges.

Without any notice, they can update or modify their software
