

## Comparison of data usage policies and practices for services in Bangladesh.

**Activity:** Criticism of Terms of Service (ToS), End User License Agreement (EULA), Privacy Policy fulfilling the legal requirements and the existing practices for a particular sector.

- Bongo BD uses cookies, so according to their terms and conditions, one gives consent to use their cookies.
- They claim that, they, their licensors and service providers own and control all the copyright and all other intellectual property rights, titles and interests in and relating to the services and the materials and contents on their websites.
- They don't allow the users to use their content for any kind of marketing strategy.
- According to the copyright laws of the land recognize "Fair use", one can use the copyrighted content for specified purposes including but not limited to criticism and/or review of content.

## Uber

- Uber clarifies that they may immediately terminate terms or any service with respect to the user or generally cease offering or deny access to the service or any portion thereof, at any time for any reason. This can be problematic for some of the users.
- Uber asks the user to verify their age that they are at least 18 years old and maintain the accuracy of their account. User is responsible for all the activity that occurs under the account and user automatically agree to maintain the security and secrecy of the account username and password at all times. Here uber don't take any kind of responsibility if an account is hacked or maintains the security or secrecy of any account.
- About the indemnify, according to the privacy policy the user agrees to indemnify and hold Uber and its officers, directors, employees and agents harmless from any and all claims, demands, losses, liabilities and expenses arising out of or in connection with 1. Users use of service or services or services or goods obtained through user's use of the services, 2. If user breaches or violates terms 3. Uber's use of user's content 4. Users' violation of the rights of any third party including third party provider.

## HungryNaki

- In their 3.1.1 terms and condition they say, they may invalidate the username and password at any time without giving any reason and notice. They won't take any responsibility for the losses or anything. But the user should at least be notified before this kind of situation.
- In the line 3.3, they say they will not take any kind of responsibility of the contract or deal between the user and the service provider, but they should at least ensure that no one get scammed by any of the service provider as the provider is serving in their site.
- In point 3.4 they let us know that due to the nature of the internet and the nature of the site, they cannot give any guarantee. User account might get officially suspended or restricted to allow for repairs and maintenance, or the introduction of new facilities without any prior notice, which is not rightful for the user.

- Daraz claims that they collect data like, user name, gender, profile picture and contact information (email address, phone numbers). These are some sort of sensitive information and can be used for wrong cause. Daraz also claims that the given information used in the site will be treated as strictly confidential according to the privacy agreement and applicable laws and regulations.
- User must inform the authority if he thinks the password became known to other. If any unauthorized or fraud access is attempted form their account, user shall be responsible for the act.
- According to their terms and condition, user confirms they are at least 18 in order to access the site or is accessing the site under the supervision of a legal guardian. By these they grant the user a limited license to access and make personal use of the site.
- There are many third parties in the site for business purposes, selling products line etc. Daraz will not take any responsibility for examine or evaluating, also do not warrant or endorse the offering of any of the business or individuals, or the content of their websites.

- Bkash demands in their 5.1 terms that full Name, shop/business/institute name, business/institute type, home/shop/business address including district & thana (Police Station),contact information including mobile Number, e-mail address, demographic information such as postcode, preferences and interests, and other Information relevant to Registration, Surveys, and/or offers.
- In 9.3 terms, they will give access to third parties websites but will not any warranty or guarantee .
- 10.1 They do not use cookies at or in their site. However, they do not take any responsibility of any third party websites whose links have been included in our Site as to whether such websites use cookies or not.
